About Unitell Electronics Limited

Powering Innovation, Delivering Excellence

Founded in 2008, Unitell Electronics Limited has been at the forefront of the electronic components industry, delivering cutting-edge solutions to businesses worldwide. With a team of 150 dedicated professionals, we have built a reputation for quality, reliability, and innovation.

1

Specializing in high-performance electronic components, we supply IC chipsets, RAM, CPUs, servers, RRUs, GPUs, SSDs, and HDDs to meet the growing demands of modern technology. Our components power everything from high-speed computing to advanced telecommunications, ensuring seamless performance for our clients across various industries.

At Unitell Electronics Limited, we are committed to providing top-tier products sourced from trusted manufacturers. Our expertise and customer-centric approach set us apart, making us the preferred partner for businesses seeking premium electronic components.

With over a decade of industry experience, we continue to push boundaries, ensuring our clients receive the best-in-class solutions tailored to their needs. Whether you're a tech giant, a data center, or a startup looking for high-performance hardware, Unitell Electronics Limited is your trusted supplier in the fast-paced world of electronics. Quality. Innovation. Reliability. That's the Unitell promise.
